## REPORT OF SCHOOL BOARD.

In our annual school report we desire to impress on the minds of both parents and scholars the fact that the school board is only an auxiliary to the success of our schools, and that you are equally responsible for the success or failure of educational work. Credit is due the teachers for their faithful work, for we realize the fact that in our public schools the many duties devolving on the teachers are often very arduous. Our aim is to retain satisfactory teachers for we believe this is the only successful method in educational progress.

Necessary repairs have been made on all school buildings to insure their preservation. Earnest effort on the part of all will insure success in our schools and make the duties of the school board a pleasant responsibility.
